Thanks for heads-up Romell. We will also need to add CZARA to this list.  
EPA and NOAA have proposed to disapprove OR's coastal nonpoint program, a precedential action, and will be making a final decision by January 2015.

All:

This is a heads up that Bob P. will be speaking at the ACWA Oregon annual meeting (the participants are mostly members from Oregon, and the meeting is focused on their issues) on **July 25th**.

I will be working with Ellen Tarquinio on the parameters for talking points on the following OWOW topics:

# Non-Responsive

I just wanted you to be aware now that I will be coming to you soon about these topics, once I have some more direction from the AO on what and how much Bob P. is looking for.
